TO WHOM IT MAY CONCERN

I am penning this letter of recommendation for Mr. Hemang Sharma for the fellowship program at Wikimedia Foundation. I know him for the last three years. He was a student in my course on "Programming for Problem Solving" during the 2nd semester of B.Tech. I have observed Hemang is talented and would be an ideal candidate for the fellowship program. Hence, I wholeheartedly support his application to your organization.

As a class counselor, I have observed that Hemang is always an attentive student and contributes to class discussions. Also, he offers his knowledge to his classmates. He always has a pleasant attitude and accepts feedback from me as well as his classmates. He shows extraordinary determination and sincerity in his learning and has a meticulous approach to practice and research work.
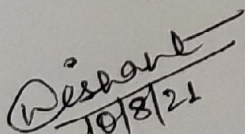

He has a keen interest in developing games and other applications. He has also done some research work and published his work "Cyborg: Machine in Disguise?" in IRJET. He has worked on some of his projects like augmented reality games, computer software.

I sincerely feel that he is the most deserving candidate to get into the fellowship program. If he gets this opportunity, it will benefit his professional learning and boost his confidence.

In case there are any queries from your side, please feel free to contact me on the given numbers from Monday to Friday between 10.00 am to 3.00 pm or through the given email address anytime.

Thanking you

Sincerely

10/8/21
